Subject: Re: briefing for Millie Lillie's Visit

Brian,

I don't think (almost sure) your briefing did not get to Ellen in time to get "dolled-up" and included in the package that Ann is carrying with her tomorrow. Therefore, you need to make several copies and Ann can include it when she gets there Monday.

Your briefing looks very good. I particularly like the fact that it's quite on the current landowner/removal issue. If we bring this up to Millie, let's do it in a conversation (not in writing). At least until we have a course of action better established. As I understand it, Dave Flemming is working with Gary to set up a conference call early next week. I assume you will be part of that.

Thanks - good work

Mitch
